

## The City of Belton, Texas

seeks an experienced, committed, and innovative applicant to serve as the City's next Director of Public Works

### \*\*\*\*\* REVISED REQUIREMENTS AND CERTIFICATIONS \*\*\*\*\*

The City of Belton is conducting a search for a key member of its management team to serve as its next Director of Public Works. The position, which reports to the City Manager, requires experience in public works practices, and the ability to work on multiple projects simultaneously in a team environment. The Director will manage, direct, and coordinate the activities of the Public Works Department through Superintendents responsible for building maintenance, parks facilities, streets and brush maintenance, drainage, water and wastewater, and vehicle maintenance. The Director of Public Works serves an important coordination role among City departments, the development community, and property owners. Extensive work with outside agencies and property owners requires excellent communication skills – including oral, written, and presentation. Familiarity with development review processing, city codes and state and federal requirements in the area of public works is essential for effective performance.

Requirements include a Bachelor's degree from an accredited college or university with major course work in engineering, construction management, or a related field; and other related coursework and training that demonstrates a commitment to lifelong learning and practice in this field, including private sector experience. Requires five years relevant experience, including three years of administrative and supervisory responsibility with budget experience. Professional Engineer (PE) certification *is desired, but not required*. Possession of, or the ability to obtain, a water and wastewater Class "C" certification or above from the Texas Commission on Environmental Quality is required.

Position is open until filled
